

GR 'S'

Extra strong stripper

Ingredients:

Extra strong stripper based on water soluble solvents. GR`S contains: less than 5% nonionic and anionic surfactants, NTA. Other components: water soluble solvents, soda-lye and perfume oil.

pH-value: approx. 13 – 14.

Performance:

Quickly and easily removes old and multilayered wax and selfshining films as well as stubborn stains. Also most appropriate for final cleaning of buildings prior to hand-over. Can be diluted with water in any proportion. Low lather. Agreeable fragrance.

Application notes:

To clean thoroughly all waterproof floors except for linoleum, unsealed wooden floors and vinyl asbestos-slabs. Also appropriate to remove oil and grease marks on floors in kitchens and workshop halls.

Usage:

Depending on the type and thickness of the film residues or incrustations to be removed, apply GR`S diluted in a ratio of 1:10 with cold water or neat on the floor, leave to soak and clean with machine (brush or pad) or scrub. Immediately take up dirt deposits manually or with water vacuum cleaner (do not leave to dry) and rinse thoroughly with water. Proceed in stages.

Precautions for use:

Corrosive. Contains caustic soda. Causes severe burns. Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with water. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Keep container tightly closed. Use in well ventilated conditions.

Ecology:

This product is subject to regulations governing the environmental compatibility of washing and cleaning agents and the associated regulations on the biological degradability of the raw materials used.

Comprehensive information about the environmental characteristics of this product is available on request.

Give only completely packaging to special waste disposer.

This product is designated for industrial use.
