

Spa pool Olympic

Pahlén Olympic is a spacious octagonal pool for up to 10-12 bathers. It is ideal for public use in adventure and amusement installations, recreation parks and hotels etc. The Olympic is elegantly sculptured to represent a volcano with the water bubbling and erupting from the centre before gently running down over the edges to be collected into the wide overflow channel. Pahlén Olympic - the spacious spa combining modern techniques with a luxurious design. Available in three models.

Technical description

Vacuum formed sanitary grade acrylic backed by fibreglass reinforcement.

Colour: White.

Olympic with low overflow channel

Item no. 81133

- Self supporting construction with 9 adjustable supporting legs
- Low overflow channel with covering grating and connections to a balance tank
- Double air channel system for air massage
- 10 adjustable air/water therapy jets
- Bottom mounted inlet and drain
- 2 x 50W, 12V lighting units
- Pre-plumbed
