

Electric controller

57,90 EUR

95065

Complete with casing and terminal strip for the total wiring of the incubator, temperature probe (70cm), control lamp, adjusting knob, terminals for 230 Volt connection and heating. Accuracy 1/10°C

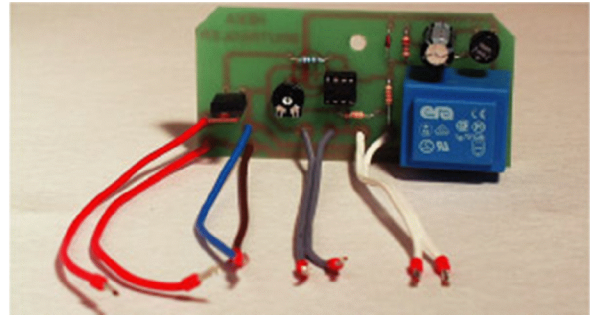

**Regulator Circuit Board**

**34,90 EUR**

**95080**

Separate, without casing with connecting wires.

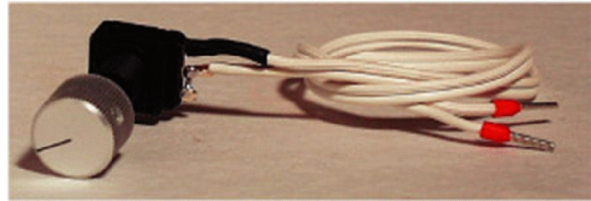

**Fine Adjustment Turning Knob For Temperature**

**4,90 EUR**

**95085**

complete with soldered on input lead

Temperature Lead

4,90 EUR

Processor Control Unit With Front Mounting Panel

299,00 EUR

95105/a

For precise regulation of temperature, humidity, turning rhythm, cooling off time and cooling cycle. All data is displayed in big illuminated letters for spot reading. Simultaneous display of temperature and humidity.

**Micro-Processor Computer Control Unit**

**389,00 EUR**

**95100**

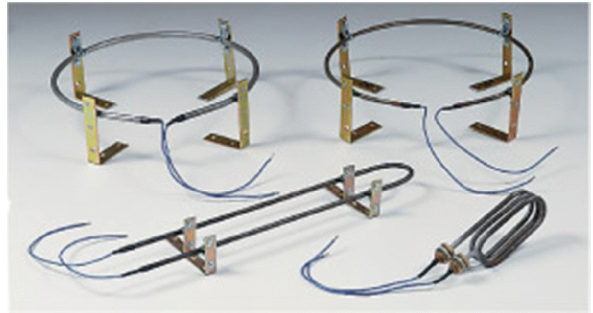

For precise regulation of temperature, humidity, turning rhythm, cooling off time and cooling cycle. All data is displayed in big illuminated letters for spot reading. Temperature is regulated in the range from 1/100°C and humidity range from 1/10%. Complete with probe and probe electronic amplifier device and layout.

15,90 EUR

95107

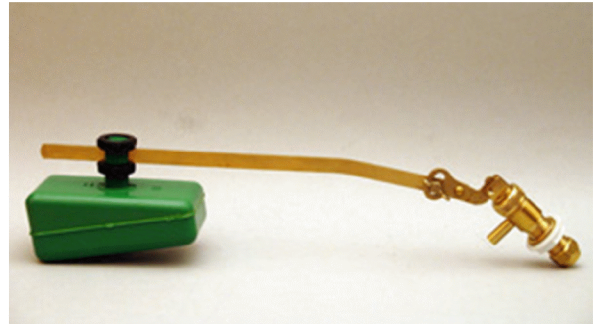

**Brass Float Valve**

**19,90 EUR**

**95152**

including plastic floater

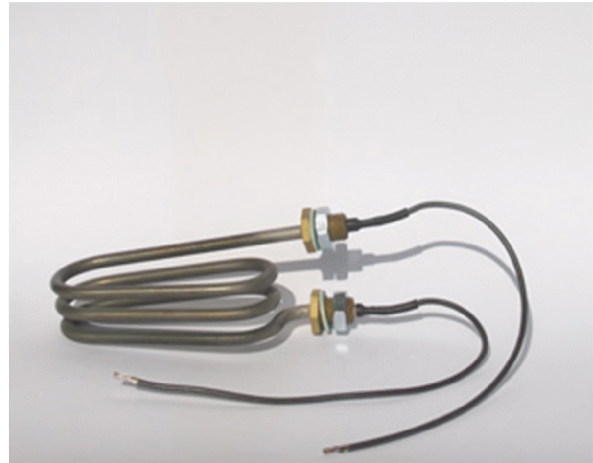

**Water Heating Element**

**22,90 EUR**

**95150**

for lateral bolting

13,90 EUR

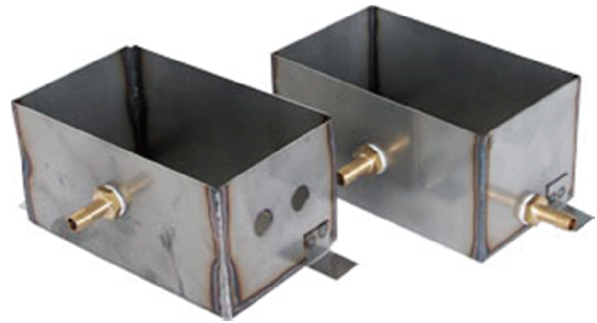

95335

22,90 EUR

95154

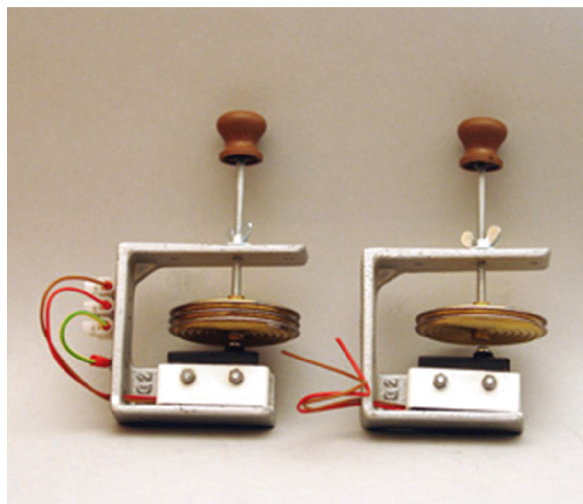

**Complete Thermostat Ether Wafer with Switch**

**34,90 EUR**

**95160**

Complete with micro-switch, mounting bracket, triple membrane, 70 mm and luster terminal. Long lasting, durable Quality.

11,90 EUR

95175

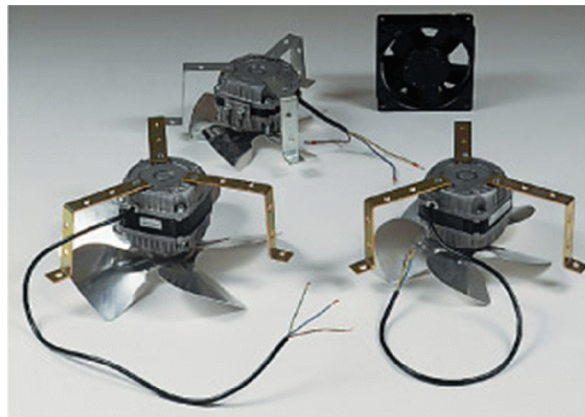

Durable Ventilator Ø 170mm

42,90 EUR

95215

Durable motor ventilator with srewed on fans.  
Complete with brackets for mounting

Filament Hygrometer

11,00 EUR

95250

Ø 80 mm

(Article in the middle)

Glass Angle Thermometer, readable from the front
