

Thermo-Electra b.v.

The company was established in 1962 and concentrated on temperature sensor manufacturing. It has grown into a young modern company with expertise for the application required.

Today we offer a complete range, from the temperature sensor, to cable and connector systems, including instrumentation.

All components needed for accuracy and speed are available.

For many applications sensor design can be discussed with the client, to satisfy his exact requirements.

Purpose built products exactly fitting the applications are one of our strengths and give a major benefit to the end users.

Thermo-Electra offers, together with more than 25 sales channels throughout the world, a reliable production with technical support and service.
