

## Electronic Power Supplies - EPS

Full electronic controllable AC power supplies for UV discharge lamps of max. 34 kW.

- High efficiency, aprox. **10% higher UV output** at the same electrical power input compared to a standard power supply
- Compact, aprox. **50% less footprint** for a 10 lamp system
- **Less weight** comparing power supply
- Integrated stepless control between 15% and 100%
- Easy maintenance and less wiring
- Detailed error monitoring
- Improved reignition
- Integrated cooling
- Main supply: 400-480 V, 50/60 HZ
