

Heat Pipe Heat Sink for Cooling IGBT

*FDI2000P

Cooling method: Forced convection
Maximum heat flow rate: 2KW
Thermal resistance: 0.02 °C/W(1800W/pair)
Working fluid: FC-72
Installation angle: over 5 °C from horizontal
Operation temperature: -30 °C ~120 °C
Size: 651mm*250mm*57mm
Number of heatpipe: 4
Ceramic tube adopted for electric insulation
