

CONNECTO

Your advantages:

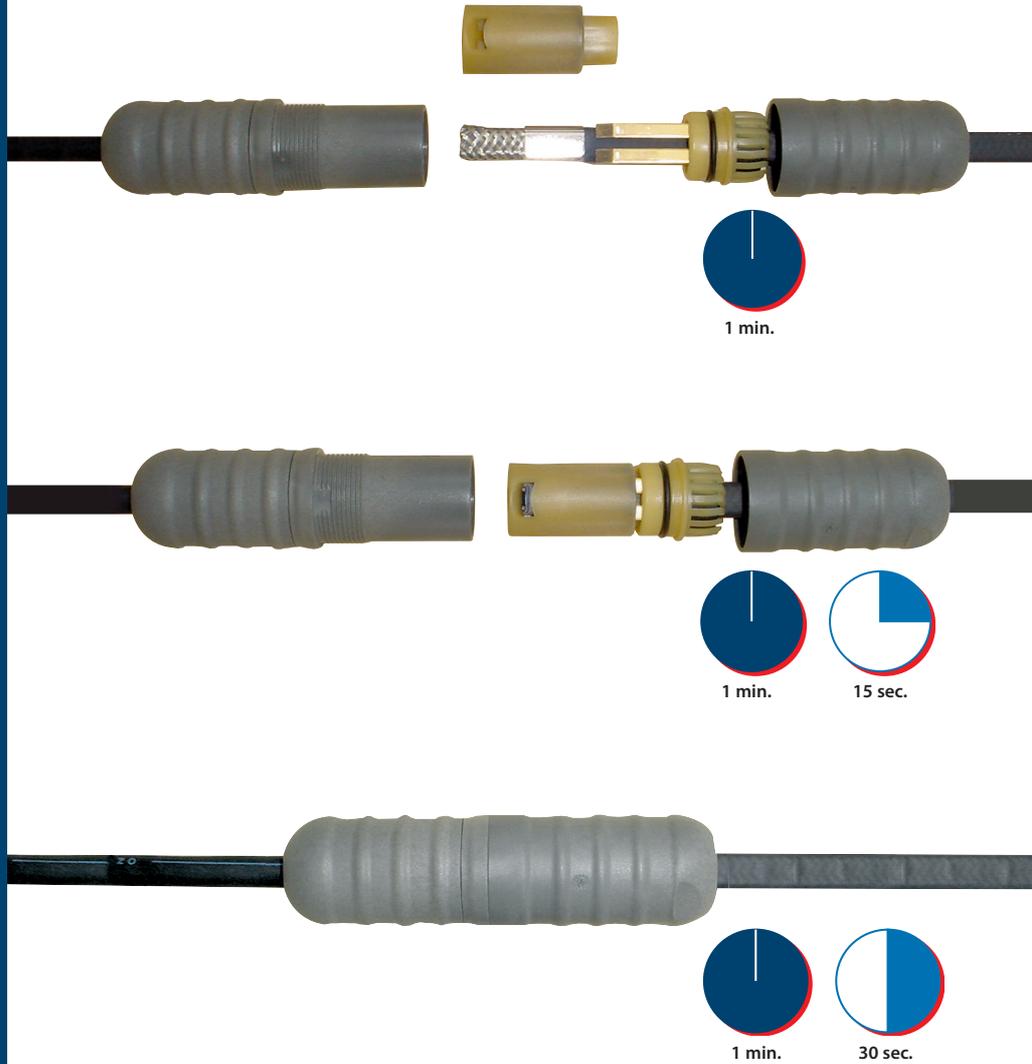

- 1 No tools, just a knife
- 2 Fast assembly
- 3 Compact design
- 4 High safety
- 5 IP Class 68

Save assembly time!

New connection system for self limiting heating cables

The new system makes it possible for you to connect the self limiting cable to a cold tail in less than 90 seconds! Now you do not have to use different tools and clamps. The only tool you need is a knife. The compact design gives you installation freedom e.g. for installation in roof gutters.

The Connecto system comes in many different connection types, also as T and X connections.

CONNECTO

B - A = 230V  Heating cable 

B - C =  Heating cable  Heating cable 

B - E =  Heating cable  End cap

B - S = 230V  Heating cable  End cap

B - T =  Heating cable 
 Heating cable  End cap
 Heating cable 

B - TE2 = 230V  Heating cable  End cap
 Heating cable  End cap

B - TE3 = 230V  Heating cable  End cap
 Heating cable  End cap
 Heating cable  End cap

B - X =  Heating cable 
 Heating cable  End cap
 Heating cable  End cap
 Heating cable
