

GLANZER – B 251

*High durable
Self - shining emulsion*

Ingredients:

GLANZER – B 251 contains: less than 5% non-anionic surfactants. Contains preservatives. Other ingredients: polymers, waxes, softening agents and perfume oil. pH-value approx. 7,3.

Performance:

GLANZER- B 251 is economical in use because of a high filling capacity. Excellent shining effect. High durability. Particularly resistant to abrasion, black heel and traffic marks and soiling of different kind. With High-Speed-Machines polishable too. Antislip. Walkways can be repaired with GLANZER - B 251 without leaving an edge.

Application notes:

Suitable for all kinds of floorings including stone and marble floors. Do not use on unsealed wooden floors.

Usage:

1. Initial treatment

After stripping with GR 10, apply GLANZER - B 251 evenly (e.g. with mop, etc). Two or even three coatings are advisable.

2. Maintenance cleaning

a) For lighter soiling, a daily damp-wipe with the appropriate equipment is sufficient. Polish if required.

b) For heavier soiling use TAWIP or POSA in 1-2% dilution (80 – 160 ml to 8 l water) in wet-wiping process.

c) To eliminate heavier traffic traces use CLEANER R or GLANZER- B 251 (in a ratio of 1:3 diluted in water) in a Spray-cleaner - process. Spray the Cleaner with spraybottle and then clean with machine and light brown pad disc. This system of application permit to postpone the next floor stripping.

Ecology:

This product is subject to regulations governing the environmental compatibility of washing and cleaning agents and the associated regulations on the biological degradability of the raw materials used.

Comprehensive information on the environmental characteristics of this product is available on request.

Give only completely emptied packaging to special waste disposer.

This product is designated for industrial use.

Product code: GE 20

UBA 0947 0310

Waste Key: 070208

Vulnerable to frost
