## Technical description B680

Electrolux - Palenzo B680 is a powerful, automatic pool cleaner for middle sized to the really big swimming pools. The B680 enables a rapid and efficient cleaning of both indoor and outdoor swimming pools. It is supplied with a safety transformer with an operating voltage of 42 V for maximum safety. It is equipped with ergonomically designed handles that save backs and enables easy handling of the machine in and out of the water. The powerful suction of the pump enables the B680 to also clean the walls of the swimming pools. The Electrolux Palenzo B680 comes equipped with a remote control with cable or radio remote control and can be operated in both manual and automatic mode. With the optional timer the B680 can be set to start and stop operation at any time you define enabling automatic overnight cleaning of swimming pools. The rotating brush system cleans the bottom from all dirt, which is subsequently absorbed by the powerful pump. Together with the new improved filter this enables the Electrolux Palenzo B680 to clean even very large swimming pools in a rapid and efficient way. The Electrolux Palenzo B680 requires only a minimum of maintenance and is ready to be operated as soon as it is taken out of the box and connected to the power supply. The B680 meets the demands of the EC declaration of conformity for machines and electrical conformity.

### Standard equipment

	<u>B680</u>
Transport trolley incl. transformer	
Filter bag	100 micron
Counter rotating brushes	
Power supply cable	10 m
Remote control cable	25 m
Floating cable	40 m

### Technical specifications

	<u>B680</u>
Weight	approx 49 kg
Weight in water	approx 5 kg
Dimensions ( L x W x H )	86 x 60 x 70 cm
Suction width	60 cm
Suction capacity	1200 l/min
Speed in manuel mode	0,25 och 0,45 m/sec
Speed in automatic mode	0,25 m/sec
Mains voltage 3-phase 50/60 Hz	205/230/400 V

Operating voltage	42 V
Max power consumption	2,5 kW

### Optional

	<u>B680</u>
Radio remote control	
Filter Bag	400 micron
Discharge for hose	2"
Floating discharge hose	50x2"
Spring loaded brush	
Free stream impeller	
Flexible bumper bar for continues operation	
Floating cable	41 – 60 m

Complete B680 cleaning unit with trolley, transformer and floating cable. The trolley has a build in ramp for easy unloading and

Transport trolley equipped with transformer, timer, radio control unit and sturdy lockable wheels.

The floating cable is connected to the transformer by a plug and socket. This makes transportation and service easy and prevents the floating cable from twisting.

Hand box for easy operation of the pool cleaner
