ODESSEY ELECTRIC UNDER BLANKET

ELECTRIC BLANKET works on simple principle that heating heals body faster as compare to other treatments .This factor alone make a electric blanket not just another mattress, But In fact – A revolutionary way to sleep and heal. The medical benefits are just one of the aspects of buying a blanket. Do try and remember – it's a **NEW SLEEPING CONCEPT.**

The **ODESSEY ELECTRIC UNDER BLANKET** is meant for perfectly healthy people also. It can give you the kind of pleasure and relaxation that no other mattress will equal .Take a second to imagine to sleep on slightly heated surface in chilling winter. You can simply how relax you are going to feel.

You would be quite surprised to hear that on a normal mattress a person turns 60-80 times in just 8 hours, Whereas it has been scientifically proven that on a electric blanket, people don't turn more than 5-6 times .To put it simply sleep is for more restful on a electric blanket than simply on a convectional foam mattress.

STILL WANT THAT OLD FOAM MATTRESS????????? WHAT ARE THE HEALTH BENEFITS OF USING A ELECTRIC UNDER BLANKET ?

Electric Blanket are the best sleep system we know to help our bodies relax and to provide maximum body comfort. They are comfortable, warm and durable. Discover a better way to sleep, night after night, year after year. As a result you will experience improved blood circulation and rarely toss and turn, which can disrupt a good night's sleep. You will awaken feeling refreshed, well rested and energized. **MEDICAL FACT AND FINDINGS**

Electric blanket is currently being used in hospitals throughout the United States, Europe and Australia. A wealth of sound medical data confirming the therapeutic benefits of sleep is now

emerging.

- Electric blanket warmth works to speed relaxation, soothe sore muscles and relieve tension.
- Electric blanket generally increases the ease of falling asleep.
- Electric blanket permits longer periods of sleep, with less movement and fewer Re-awakening.
- Electric blanket sleep contributes to a more relaxed feeling in the morning and Helps reduce morning stiffness.
- When sleeping on Electric blanket, patients requires less pain medication to Sleep Comfortably.

Electric under blanket increase relaxation, meaning longer periods with less movement and fewer re- awakenings . It's the gentlest and most supportive surface on which we sleep and relax, and can be heated to whatever temperature suits you best. It can provide unusually helpful support for convalescents, those with painful joint.

BACKACHE TREATMENT

All of us come up against back problems at one stage in our lives, whether it is a serious condition or a niggling complaint due to improper sleeping posture, an Electric under blanket can afford relief and often a complete solution.

"An ELECTRIC BLANKET is the most comfortable surface one can sleep on."

ARTHRITIS RELIEF

With soothing and even distribution of heat, Electric under blanket is incredibly kind on injured joints and those suffering from arthritis.

INSOMNIA CURE

Due to all of the reasons listed above listed above and many more , a Electric under blanket is one of the most relaxing surfaces to sleep on , offering relief from insomnia conditions that are caused by other more undetectable problems such as bad sleeping posture , coldness, uncomfortable mattresses, etc. An Electric blanket gives you the best chance to get a good nights sleep and wake refreshed and ready to go.

HEATING EFFECTS ON THE BODY

Another known advantage of an Electric under blanket is its ability to remain warmer at set temperature. This in turn results in a far more restful & relaxing sleep.

Heating regulates blood flow, improves the functions of joints, organs and muscles and helps in:-

- Sports Injuries • Rheumatoid Arthritis • Joints pain
- Spondylitis • Dislocations & fractures • Post journey pains
- Lumbago • Sprain & Strain • Body aches
- Post operative pains • Body Stiffness • Post delivery pains
- Shivering • Muscles relaxation • Old age pain
- Osteoarthritis • Tendonitis
- Provides warmth and personal comfort in cold
- Useful in hospitals, operations theatres, air conditioned areas etc.
