■ Your silent partner

The new miniCool collection

■ Lets you  
enjoy the pleasure  
of a silent afternoon.

■ **Silencio miniCool is the ideal second fridge in any home.**

Cold drinks and fresh snacks – these you may need in any room of your home. It is more comfortable to have these at the place you are at, using Silencio miniCool, the second refrigerator of your home.

Architects, designers, and homeowners agree: Silencio miniCool offers a unique way to add a touch of comfort and convenience to your home. No longer do you need to run to the kitchen for a snack or drink. You should not stop exercising to go for a cold drink. Since it is virtually silent, nothing will disturb work, exercises, rest, and play.

■ **Advantages of a Silencio miniCool in the home:**

◆ **Compact size**

A miniCool is easy to intergrate into any interior and fits practically anywhere. Ideal for small rooms, home offices, bedrooms, fitness rooms, etc.

◆ **A world of possibilities**

An extensive selection of colours and sizes equals flexibility – your only limit is your imagination.

■ **Special offer:**

Castors – Effortlessly move your Silencio miniCool from room to room.

## Care Facilities, Hospitals, Elderly Homes

### ■ Advantages of a Silencio miniCool in care facilities:

#### ◆ Adaptability

Easy to place in any room regardless of existing furniture, with no additional installation costs.

#### ◆ Efficiency

Dometic Silencio miniCool provides a higher level of comfort, which can generate increased income due to justifiably higher occupancy fees.

#### ◆ Low operating costs

Low energy consumption and no need for maintenance.

#### ◆ Virtual silence

No unnecessary additional noises to spoil a good night's rest!

#### ◆ Independence

With food and drinks always within reach, patients enjoy a degree of self-sufficiency that can improve their well-being.

### ■ Special offer for retirement homes:

#### ◆ Ergonomic handles

With the attachable handle easy to open the door. Ideal for those with a limited range of movement.

### ■ Special offer for hospitals:

#### ◆ Hooks

Keep everything at hand, from towels to newspaper and notebook holders.

## Student Residences

### ■ Advantages of a Silencio miniCool in student residences:

#### ◆ Higher rating

Higher comfort means higher occupancy rates and/or higher achievable rents.

#### ◆ Lower costs

Dometic Silencio with Fuzzy Logic ensures improved performance at lower energy consumption. Silencio miniCool needs no maintenance – that means another possibility to save up money.

#### ◆ Compact design

Ideal for small rooms or places where existing furniture must be accommodated.

#### ◆ Personal Comfort

A student can be very busy, especially when preparing for exams. Silencio miniCool is a great help, since it can hold several bottles of cold drink and heaps of snacks for these occasions within easy reach.

#### ◆ Silent operation

The absence of a humming noise allows students to sleep or study in peace.

#### ■ Special offer:

#### ◆ Lock

Everyone can have his or her own things in the student residence. No more complaints because of missing drink or snacks.

■ **Silencio miniCool is tailored** to your personality through many little items.

Thanks to a wide range of options, the Silencio miniCool can be tailored to your personality and taste.

From ergonomic handles to tray dividers, our optional extras are designed to increase your comfort and transform your Silencio refrigerator to fit your space and meet your needs.

### ■ **Spiral cable**

Why would a refrigerator need to stand close to the wall? In case of Silencio miniCool there is no need – thanks to the spiral cable you can move it freely around.

- ◆ More convenient than a traditional power cable.
- ◆ The refrigerator does not have to be placed in the immediate vicinity of a wall outlet.
- ◆ No extra loops of cable on the floor to trap your feet.

# *silencio*

## Options

### ■ **Castors**

You can use Silencio miniCool in several places and for several purposes. Whenever you want to change the position of the refrigerator, you can easily do it thanks the castors.

- ◆ As for its mobility, it will save you some work when cleaning the room.
- ◆ Having a party in another room? Simply move your miniCool to whatever room the party is in.

■ **Silencio miniCool's** special benefits for office:

Helps you and your colleagues perform better. Will not disturb anyone's concentration, the phone calls, writing, calculations, etc.

◆ **Relief**

Nobody interrupts your meetings with servings, you and your guests are always within easy reach of refreshments.

◆ **Comfort**

Added convenience - be it during negotiations or when there is a cause for celebration - cool drinks are always at hand.

◆ **Design**

A modern design available in different shapes and colors, complements any interior design concepts.

It can be built in or implemented as freestanding.

◆ **Operation**

Low operation cost due to low energy consumption and no need for regular maintenance.

## ■ Behind silent cooling

### DOMETIC GROUP CORPORATE STATEMENT

- ◆ Our mission is to continually strive for excellence in product development, manufacturing and customer service across all of our product lines; to reinforce our worldwide leadership position and establish a firm claim on new markets.
- ◆ We are committed to exploring new technologies, increasing the variety of our products and seeking new fields of business.
- ◆ Our heritage dates back to 1925, with the invention of the now-famous absorption cooling technology.

In the decades since, Dometic has introduced an impressive range of convenience products catering to the recreational vehicle, hotel, medical and other industries.

- ◆ Dometic shall be identified internationally as a flexible, innovative and customer oriented company which is far ahead of the competition - simply because our products ensure outstanding convenience and performance; a standard which has already created a legend of its own.

### DOMETIC GROUP SUPPORTING STATEMENT

- ◆ Dometic is a leading international supplier of specialty refrigeration and products and systems for increased comfort away from home. Dometic provides Recreation Vehicle and Pleasure Boat Systems and Special Refrigeration Systems for use mainly in the leisure industry, the hotel sector and on medical markets.

Dometic has achieved leading global market positions by focusing on its strong customer relationships and developing innovative solutions.

- ◆ Dometic has production facilities in ten countries, its own sales and marketing operations in 35 countries plus approximately 65 distributors globally. 2002 sales amounted to approximately 6 400 MSEK and the number of employees to 4 000.

#### ■ Special offer:

Lock – No surprises: all the cold drinks put inside will remain untouched till the time they are required during the meeting.

# *silencio*

## Office, Meeting Room

#### ■ The ideal office refrigerator

With a Silencio miniCool in the office or in the meeting room your clients will appreciate your refinement and taste. Remember, presenting the right image enables you to get more business!

Moreover, there is no need to interrupt your concentration or your meeting when you have a Silencio miniCool at hand. The miniCool is virtually silent in operation, so it will not disturb anyone whether it is placed next to a workstation or in a meeting room.

## ■ Lock

There are some cases when a refrigerator should be better locked up. Silencio miniCool has this possibility.

- ◆ Secure and safe storage for personal and confidential objects (e.g. medicine, cosmetics).
- ◆ Ensures personalized use even with shared accommodations (retirement homes, hospitals etc.).
- ◆ Drinks can be locked up in the office.

## ■ Tray and tray dividers

Sometimes you have to share the space in the room – and the refrigerator with others. With the help of tray dividers you can keep items separated.

- ◆ Systematize and track the contents of the refrigerator.
- ◆ Each object is different – With the help of dividers, you can group or sort the interior space of the refrigerator and make better use of the space.
- ◆ Move the tray and the dividers to create your personal interior of the refrigerator.

## ■ Hook

Practical and fits to the design of Silencio miniCool: the hook keeps everything at hand, including

- ◆ towels and bags,
- ◆ bottle openers,
- ◆ newspaper and notebook holders.

## ■ Ergonomic handle

Opening a refrigerator is not always that simple – but not if it is a Silencio miniCool! With its ergonomic handle, it is easy to access the contents of the miniCool in a second.

- ◆ Easy to open the door.
- ◆ Ideal for those living – temporarily or permanently – with physical limits.

### ■ Increase student comfort

A crowd of people that are totally different – that is the most typical characteristic of a student residence. Young independent people live communally – they all want to have a little bit of space of their own. Silencio miniCool can attribute a lot to create the personal space for a student, even when living in a room with other people. With this small and practical refrigerator he or she can have cold drinks and snacks at

hand even when the stores are closed. Dometic Silencio refrigerators are compact, so they can fit into the given space no matter how crowded.

A Dometic miniCool is a sign of the highest standard in student residences all over Europe – students and their parents are willing to pay higher rental fees for the comfort of a living space equipped with a Silencio miniCool.

## ■ Silencio miniCool: the best cooling performance.

Your Silencio refrigerator will not make a sound. Absorption technology without any moving parts means that Silencio miniCool will not buzz, rattle or rumble. Its reliability is second to none! Cool pleasure day and night: absorption refrigerators, without compressor, apply the unique, eco-friendly principle of silent cooling. Due to its special Fuzzy Logic system Silencio miniCool is the economic way of cooling. This small refrigerator does not use CFCs or HCFCs, so you can enjoy nature to the fullest.

Silencio miniCool is designed to provide a lifetime of reliable and silent cooling, in an economic way.

## ■ Silencio: a new superior innovative range

- ◆ new, attractive design
- ◆ three appealing colours to choose from
- ◆ finds its place in all rooms: freestanding and built-in models
- ◆ lowest energy consumption for absorption refrigerators
- ◆ best cooling performance: 3°C even at an external temperature of 32°C
- ◆ automatic defrosting with Fuzzy Logic system
- ◆ environmental friendly
- ◆ 80 years experience behind each Dometic refrigerator
- ◆ Europe-wide service

## ■ Taking care.

A stay in hospital no longer needs to be an uncomfortable experience most people assume it will be. Indeed, today's private hospitals and retirement homes provide such high standards of service that patients feel pampered on arrival. This often includes luxury items such as a TV, a phone and a silent miniCool refrigerator in each room to promote the patients' well-being.

From hospitals to retirement homes Dometic Silencio can improve the health care environment for patients and staff alike.

With a miniCool at hand, patients are less dependent on staff for drinks and snacks, saving hospitals time and money that such tasks require and allowing staff to turn their attention to more urgent needs.

## ■ Dometic comfort.

We have combined the convenience of a personal refrigerator with the comfort of silent operation. Dometic Silencio refrigerators come in an attractive variety of styles, to suit your lifestyle and environment. All of which lead to a great deal of peace of mind.
