Upgrade for the popular RA122H/MR60

**DS 300H**

Supersedes the RA 122H

**DS 600H**

Supersedes the MR 60

# Best Selling Pharmacy Refrigerators

## What the doctor orders

*silencio*

The perfect solution for hospitals, nursing homes, Dr surgeries, pharmacies, vets, dentists and other health centres. These pharmacy refrigerators keep temperature sensitive medicines between 2°C-6°C. With the help of tray dividers medicines can be very well organised. On the top of the miniCool, a digital thermometer helps to check the interior temperature and shows the minimum and maximum temperatures until reset.

## Standard Features

- **Manual defrost**
- **Digital thermometer**
- **Available in white**
- **Door lock**

### DS 300H

Supersedes the RA 122H

Gross Volume (l)	28
Weight of freestanding version (kg)	16
Outer dimension of freestanding version h x w x d (mm)	580 x 422 x 393
Power input W	65

## NEW Standard Features

- **Trays with flexible dividers**

These can help you organise and track the contents of your miniCool. Also useful if you share space within the fridge.

Tray and flexible divider

- **Cooling unit cover**

Freestanding miniCool models have a back cover. It makes the refrigerator a part of the room.
