

FULLY AUTOMATIC.
TRULY WIRELESS.
PLUG & PLAY.

Dometic. The Satisfaction Network.

Light-years ahead in miniBar technology

HIPROmatic

The wireless automatic profit centre.

 **Dometic**

THE SIGN OF COMFORT

Welcome to HiPromatic – the new, automatic miniBar system from Dometic

))→ Dometic Mesh Network (DOMESH): Independent Wireless data transfer

No cables, no wires. Easy plug and play installation, using the latest wireless communication protocol.

))→ New e-field sensing technology

The revolutionary way to a reliable and maintenance free miniBar operation. Allows custom design shelving configuration.

))→ User friendly D-win software

Powerful and easy to use – the new Windows based software. An excellent management tool for today's Hotel user.

))→ PDA for advanced refill operation

Streamlined refill and administration via hand-held unit. Ensures a paperless refill process and increases staff efficiency.

))→ Wireless ambient shelves

Unlimited and flexible choice of location wherever you want for all ambient temperature products – no cables needed, only an AC outlet.

))→ 30 litre automatic miniBar – a new addition

To satisfy any compact furniture space, the 30 litre miniBar allows enough room to store a range of drinks and snacks.

))→ Proven HiPro technology

Quality engineering and design at its best. Reduced energy consumption with superior HiPro design.

The automatic profit centre

-))→ Automatic invoicing of consumed products in real time
-))→ Reduced losses
-))→ Streamlined refill operation
-))→ Significant labour savings
-))→ Quick and efficient check-out
-))→ Easy access by front desk to guest bill
-))→ Automatic inventory management
-))→ Convenient and easy for guests – no forms, no disturbance

Plug and Play – a true benefit of wireless communication

DOMETIC IS THE ONLY MINIBAR SUPPLIER who has decided to branch out into the independent, wireless technology. Installing an automatic system is now as simple as setting up a traditional miniBar. Using the unique HiPromatic DOMESH network as a basis, the Hotel does not need to have an existing local wireless infrastructure. Installation is without cables or wires so the miniBar can be located easily and without disruption or fuss. All the Hotel needs is an AC outlet in the room.

THE NEW AMBIENT SHELVES for products like red wine, crisps and snacks can ingeniously be located anywhere in the room on a wireless basis. Only an AC socket is needed.

WIRELESS COMMUNICATION IS THE STANDARD. The Dometic HiPromatic Communication Network works as a self organising Mesh network (DOMESH) which benefits from an integrated learning mode allowing each relevant information to find the shortest way from the miniBar to the server and back.

On request, other communication methods are also available – Twisted Pair, Ethernet and Co-axial.

Powerful and Simple

-)))→ Plug & play installation
-)))→ DOMESH wireless network communication
-)))→ No cables or wires
-)))→ Only an AC outlet is needed for miniBar and ambient shelves

Wireless Ambient Shelves are available to hold 8 or 10 items.

Revolutionary e-field sensing technology for increased profits

UNIQUE TO THE MINIBAR MARKET, the advanced e-field sensing automatic system from Dometic is a progressive and streamlined product. The reliable and maintenance free sensing technology ensures an efficiently run of your miniBar operation.

INDIVIDUAL SHELF CONFIGURATION is another great advantage: The foil can be used in multiple ways, custom-tailored solutions for large-scale projects are easily designed and realised with little effort.

NEW E-FIELD SENSING TECHNOLOGY

-))) No wear and tear
-))) No movements, no maintenance
-))) Flexible shelving configuration
-))) Reliable operation

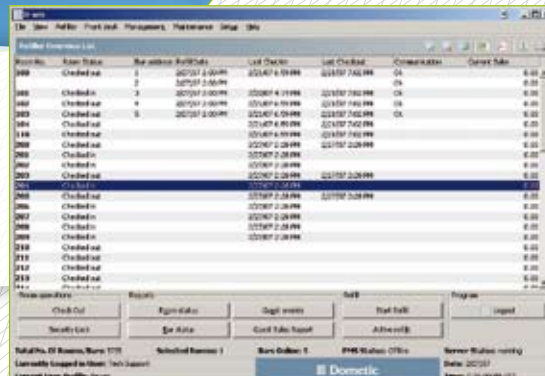

THE SENSOR AREA IS A FOIL

with a completely flat surface, whereby the presence of a product on the top layer of the foil causes a change of the electrical field. This is discovered by a special electronic circuit that determines the changes of the field strength, whenever a guest takes a drink from the miniBar. The data is then immediately transferred to the PMS of the hotel via the computer system.

Easy and convenient – advanced sensing system for a reliable miniBar operation.

D-Win: The new user-friendly software

SIMPLE, USER-FRIENDLY AND WINDOWS BASED, D-win is an advanced and powerful management tool. It is icon-based and ensures quick and easy operation right from the start and delivers all crucial operational and management reports. It registers every withdrawal on the guest's bill, shows the respective guest status, controls and monitors the miniBars and includes an advanced stock control system. Aside from locking and unlocking the devices, the cooling temperature of each miniBar can be set individually.

THE IMPROVED PRIVATE GUEST SECTION programming enables the hotel to tailor make menus to their specific guests and subsequently target promotional activities to increase revenue. Any malfunction of a miniBar, (e.g. damage, maintenance needed, communication failure, power failure or the like) is reported automatically in real-time for proactive service. The expiration date of products is closely monitored to avoid unnecessary loss.

MANAGEMENT BENEFITS

- »»→ Automatic email notification of all required reports – wherever - whenever
- »»→ No logging on to D-win system required
- »»→ All files can be exported to Excel or PDF for ease of operation

ACTUAL REPORTING IN REAL-TIME

- »»→ Profit and Loss Analysis
- »»→ Product and Sales Analysis
- »»→ Multiple menus and multiple tax treatments
- »»→ miniBar and Room Status reports
- »»→ Detailed maintenance report

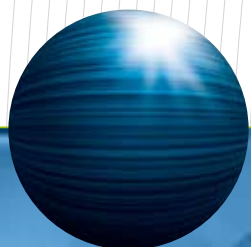

PDA - THE PAPERLESS PARTNER

- »»→ Accurate stock lists for refill
- »»→ Efficient time management by staff
- »»→ One employee can service up to 400 rooms per day

The new, user-friendly D-win software is available in English and various other languages on request. Easy operation right from the beginning.

The PDA handheld works with the D-win software also. Data of consumed products are easily downloaded, refilling is done efficiently.

HiPromatic 3000

Compact and automatic:
The new **HiPromatic 3000**
holds 22 products.

THE COMPACT 30 litre miniBar with ample space to stock 22 products. The number of products can be extended with the new Ambient Shelf variations.

The miniatures configuration for 12 door rack items and 16 additional sensors for other products.

The miniBar is available with flat inner door design also – a tailor made solution for hotels with low investment.

Standard configuration

Shelf	Number of sensors	Number of products	Products specified

providing enough space for up to 11 miniatures. In addition, you can choose from the new range of Ambient Shelf variants. For freestanding use, back cover and feet are available.

Standard configuration

Shelf	Number of sensors	Number of products	Products specified
Fridge bottom	2 x 4	8	Long neck 0.33 l
Fridge top	2 x 4	8	Cans or juice 0.2 l
Door bottom	1 x 4	4	Long neck 0.33 l
Door top	5/6	11	Miniatures
Total		31	

The CanBox option hosts up to 28 cans plus 11 miniatures.

CanBox configuration

Shelf	Number of sensors	Number of products	Products specified
Fridge bottom	2 x 4	8	Cans 0.33 l
Fridge middle	2 x 4*	4	Cans 0.33 l
Fridge top	2 x 4	8	Cans 0.33 l
Door bottom	1 x 4	4	Cans 0.33 l
Door middle	1 x 4	4	Cans 0.33 l
Door top	5/6	11	Miniatures
Total		39	

*Placed horizontally only

Options:

- »→ Flat door
- »→ Sliding hinge
- »→ Furniture lock
- »→ Choice of door decor panels
- »→ Ambient shelves
- »→ Back cover and feet for free standing option

Capacity, litres	40 L class
Dimensions [H x W x D in mm]	559 x 405 x 452 (Built-in version) 601 x 405 x 472 (Free standing version) (Free-standing use with back cover and 42 mm feet)
Consumption [kWh/24h]	0.8

HiPromatic 6000

Generous space offer:
The **HiPromatic 6000**
from Dometic, shown as
standard configuration.

The **CanBox option** pro-
motes up to 55 sensors.

THIS MINIBAR in the **60 litre-segment** gives lots of space to effectively present a comprehensive assortment – from 40 (standard configuration) up to 55 products

(CanBox configuration). In addition, it can be combined with our different Ambient Shelf options.

Standard configuration

Shelf	Number of sensors	Number of products	Products specified
Fridge bottom	2 x 5	10	Long neck 0.33 l
Fridge top	2 x 5	10	Cans 0.33 l
Door bottom	1 x 5	5	Long neck 0.33 l
Door top	8/7	15	Miniatures
Total		40	

CanBox configuration

Shelf	Number of sensors	Number of products	Products specified
Fridge bottom	2 x 5	10	Cans 0.33 l
Fridge middle	2 x 5	10	Cans 0.33 l
Fridge top	2 x 5	10	Cans 0.33 l
Door bottom	1 x 5	5	Cans 0.33 l
Door middle	1 x 5	5	Cans 0.33 l
Door top	8/7	15	Miniatures
Total		55	

Capacity, litres 60 L class

Dimensions [H x W x D in mm] 568 x 490 x 475

Consumption [kWh/24h] 0.9

-))→ Flat door
-))→ 30 Sensors or 55 Sensors
CanBox configuration
-))→ Sliding hinge
-))→ Choice of door decor panels
-))→ Furniture lock
-))→ Ambient shelves

Options:

Dometic HiPro miniBars.

Innovative thinking perfectly put into practice.

A DIMENSION OF ULTIMATE QUALITY: Dometic's HiPro miniBar series result from the sum of ideas gathered in more than 85 years of continuous research and development and more than 4.5 millions miniBars

sold. They stand out, thanks to their lean and tempting design and a variety of innovative technological details which are uniquely combined.

))→ Absorption technology

Noiseless cooling comfort – the ideal system in hotel rooms.

))→ Fuzzy Logic II energy management

Our patented software regulates the consumption and monitors the miniBar operation.

))→ Sensor-controlled surveillance of the cooling unit (CUC System)

Guaranteed reliability thanks to a continuous check of all functions.

))→ Certified lowest energy consumption

Best results ever for absorption-type miniBars; independently tested (in compliance with ISO 7371 at 25 °C outside temperature and 7 °C cooling temperature) and certified.

))→ Infrared sensor-controlled LED interior light

State-of-the-art illumination for a tempting presentation of goods.

))→ ISO 9001 and ISO 14001 certification

Superior quality and eco-friendliness, as certified by EMAS, as well as Eco Audit.

HIPROMATIC AND HIPRO MINIBARS

are made in Germany in compliance with ISO 9001 and ISO 14001, as certified by EMAS as well as Eco Audit. This guarantees top quality manufacturing and eco-friendliness right from the start.

DOMETIC IS NOTED FOR ITS PIONEERING ROLE

with regard to observing the strictest environmental regulations. Just recently, the RoHS guidelines (Restriction of certain Hazardous Substances) have been implemented – this proves that the company lives up to its environmental policy. What's more, Dometic is the sole manufacturer who has developed a patented recycling equipment for absorption miniBars.
